

## Our Environmental Policy...

The Boxshop recognises the importance of protecting the environment both on a local and global scale and is committed to operating in a fashion consistent with the principles of sustainable development. The Boxshop shall endeavour to improve its environmental performance on a continuing basis for the purpose of preventing pollution and compliance with relevant legislation, regulations and standards to which the company subscribes.

This Environmental Policy is in full compliance with all other company policies and is designed to ensure compliance with environmental objectives. Copies of this Environmental Policy, environmental objectives and targets are freely available to all employees, suppliers, customers and other interested parties on request.

The Boxshop shall implement systems and procedures designed to ensure that the requirements of relevant environmental legislation and regulations are met or exceeded.

The Boxshop shall implement systems and procedures to monitor their environmental performance and will set realistic objectives and targets aimed at promoting continual improvement to its environmental performance.

The Boxshop shall strive to minimise the use of raw materials in its processes, reduce the use of energy and where practical, use material that can be reused or recycled.

The Boxshop shall endeavour to minimise waste in its processes and where this is unavoidable arrange for reuse or recycling where possible.

The Boxshop shall implement systems and procedures to ensure that all employees are conscious of their environmental responsibilities and are aware of The Boxshop environmental policy.

The Boxshop shall protect the health and safety of its employees together with that of the public.

All products used in the manufacturing process will be assessed for environmental impact and opportunities to reduce pollution. The Boxshop shall encourage high environmental standards by other parties involved in its business, such as contractors and vendors.
